

# GEARFLUID 2K

## DESCRIPTION

GEARFLUID 2K is a solvent cutback, asphalt-based, adhesive-type gear lubricant compounded with additives to impart extreme pressure, anti-rust and anti-corrosion characteristics. Gearfluid 2K contains a non-flammable solvent to allow application without heating. After application, the solvent evaporates, leaving a lubricating film that strongly adheres to the moving surfaces.

## PROPERTY

- Provides superior rust corrosion resistance

## APPLICATION

- Big open gears, wire ropes and cables, large open chains and sprockets

## GRADES

- ISO VG 2K

## AVAILABLE PACKAGES

- 200-liter drums
- 18-liter pails

## TYPICAL CHARACTERISTICS

Specific Gravity at 15.6 °C	0.9987
Color, Visual	Black
Viscosity at 40 °C, cSt	2,058
