

PETROMAR DCL 7050

DESCRIPTION

Petromar DCL 7050 is a 67-BN (Base Number) premium diesel cylinder oil specially designed to minimize corrosive wear in turbocharged engines burning high sulfur fuel under severe operating conditions.

PROPERTIES

- High reserve of alkaline additives to neutralize acidic by-products of combustion
- Excellent anti-wear performance even under heavy load
- Superior engine cleanliness for extended engine operation
- Contains paraffinic basestocks with excellent resistance to oil thickening and gum formation

APPLICATION

- Bunker C – fired turbocharged diesel engines

GRADE

- SAE 50

AVAILABLE PACKAGES

- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

Specific Gravity at 15.6°C	0.9377
Flash Point, COC, °C	216
Color, ASTM	6.0
Viscosity at 40°C, cSt	210.6
Viscosity at 100°C, cSt	18.60
Viscosity Index	98
Pour Point, °C	-9
TBN, mgKOH/g	67
