

## Product Data Sheet

---

# PETROSINE 68

---

### DESCRIPTION

---

PETROSINE 68 is a high quality lubricant recommended for wet air filters.

### PROPERTIES

---

- Possesses carefully selected additives to improve oxidation resistance
- Provides outstanding anti-wear, anti-rust, anti-foam and tackiness properties

### TYPE

---

- Wet-type air filter lubricant

### APPLICATION

---

- Wet-type air filters

### GRADE

---

- ISO VG 68

### AVAILABLE PACKAGE

---

- 200-liter drums
- 18-liter pails

### TYPICAL CHARACTERISTICS

---

Specific Gravity at 15.6 °C	0.8801
Viscosity at 40°C, cSt	66.14
Viscosity at 100°C, cSt	8.41
Viscosity Index	96
